PROFESSIONAL SUMMARY

Motivated Btech Computer Science Engineering student specializing in AI/ML from GNA University with knowledge of Machine Learning, Python, Data Science. Skilled in developing data-driven projects and applying analytical problem-solving techniques. Passionate about building intelligent applications and continuously learning emerging technologies.

EXPERIENCE

Coderroots, Mohali, Chandigarh, 07/2025 – 08/2025
Python & DataScience Trainee

- Completed intensive training in Python, Data Science, and Machine Learning.
- Developed a Spotify Dashboard Analysis to analyze and visualize music data trends.
- Used tools like Pandas, NumPy, Matplotlib, and Excel for data handling and visualization.

EDUCATION

GNA University, 2023 – 2027 | Phagwara
Btech in Computer Science Engineering(AI/ML)
CGPA: 8.31 , GPA: 3.32/4.0
Senior Secondary: Kendriya Vidyalaya Nangal Bhur | 82%
Secondary: Kendriya Vidyalaya Nangal Bhur | 95%

SKILLS

AI/ML & NLP	OpenCv	Data visualization
Python	Excel and	Exploratory Data Analysis (EDA)
Deeplearning	powerBI	Basic SQL
Tableau	Data Science	Web Scrapping

PROJECTS

Financial Risk Analyzer

Developed a Financial Risk Analyzer web application using React, Flask, MySQL, and Random Forest Classifier to predict financial risk based on income, loan amount, and credit score. Implemented ML model integration, backend API communication, and interactive dashboard visualization.

Spotify Dashboard Analysis

Built an interactive dashboard to analyze Spotify data, uncovering listening trends and insights using data visualization techniques.
